EXPERIENCE

SOFTWARE ENGINEERING INTERN – GARMIN, OLATHE, KS 05/2026 – Present

- Built a cloud infrastructure reconciliation engine to identify orphaned resources. (Temporal, Spring Boot, Python)
- Refactored OpenStack provider layer into a structured, typed API to replace raw SDK object usage and improve reliability for Temporal-based workflows. (Pydantic)

SOFTWARE ENGINEERING INTERN – HUDL, LINCOLN, NE 05/2025 – 09/2025

- Developed and deployed features for web and mobile apps, including data-control functionality for users, action logging, and bug fixes (React, TypeScript, Snowplow).
- Participated in weekly sprint ceremonies, frequent code reviews, and business unit reviews (Agile, Git).

SOFTWARE INTERN – VIRTUAL INCISION, LINCOLN, NE 05/2024 – 04/2025

- Created a web app for use in testing and prototyping surgical console UI (CSS, HTML, JavaScript).
- Tested surgical robot hardware and mobile APIs; helped resolve critical issues before product launch.

TEACHING ASSISTANT – RAIKES SCHOOL SUMMER CAMP, LINCOLN, NE 07/2024 – 08/2025

- Taught and assisted 50+ students with Java and Python lessons and assisted with technology setup.

EDUCATION

UNIVERSITY OF NEBRASKA – LINCOLN – 3.99 GPA Exp. 05/2027
